WORK EXPERIENCE

WEB DEVELOPER / WEB DESIGN

I worked as a web designer and developer mostly on wordpress sites. My main routine is making psd designs, converting it to actual wordpress sites. I also handle other related tasks like Cpanel managements, graphic designs like banners, etc, site content management and site maintenance.

I am assigned as a web designer and developer doing per project status tasks. I was a part of the team with functions like making web designs, converting psd web designs to html, converting html to wordpress site and website maintenance.

I did web designs / web development and also maintenance of almost 80 sites. I make sure that wordpress, themes and plugins are all updated.

WORK HISTORY

2019-Current WordPress Developer

ITQ Digital, Bristol

I am still currently working in this company for Part-Time
